Subject: ENVIRONMENT COMMITTEE MEMBERS

Bonnie Klea,

Through the years, you have continually disrupted the Environment Committee meetings, both by your behavior and by inviting people you know will be disruptive. As you know, you were counseled about your personal disruptive behavior countless times.

Tonight, one of the two cancer victims you invited to the meeting became very abusive after the meeting. During what began as a very civil conversation, he stated that the WHNC and its Environment Committee were "corrupt" and sited details about Alec Uzemeck and Tony Brosamle that obviously came from you, suggesting that they were corrupt. He ultimately turned on me and called me an "a__hole" and said "f_ck you" to me.

When I encountered you in the parking lot and asked you to never again invite people to a meeting for the purpose of being disruptive or insulting the committee or its members, you replied "Yes I will"! Bonnie, your having a difference of opinion has never been an issue, but deliberately being disruptive or encouraging others to be is a problem.

During the past few years, Alec and I have from time to time considered removing you from this committee and we had numerous discussions about that. Until now, we always decided not to take any action. However, you telling me outright tonight that you intend to continue to encourage disruptive people to attend these meetings has caused Alec and me to decide to remove you from the Environment Committee. As Committee co-chairs, we have the right to decide who will be on our committee. Please consider this our official notification that you are no longer a member of the WHNC Environment Committee. Of course, you may attend any committee meetings you choose to.

Regretfully,

Steve Randall & Alec Uzemeck
